Trunk Cover

Our Materials

Heavy Duty Corrugated Cardboard

High performance industrial packaging

- Provides protection during each phase of manufacture
- Prevents damage and reduces cost in your supply cycle
- Reliable, secure and made-to-measure
- Range of compositions, thickness, flutings and treatments
- 100% recyclable

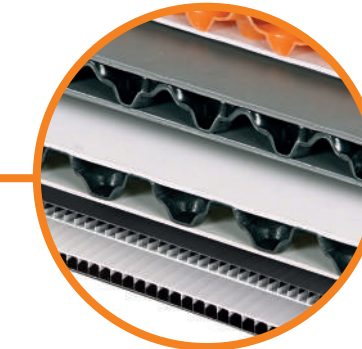

Plastics

(Extruded, Thermoformed, Injection Moulded & Textiles)

One-way or returnable packaging solutions and automotive component parts

- Rigid, durable and lightweight
- Range of thicknesses, colours and sizes
- Impact and scratch resistant
- Resistant to weather, water, chemicals and oil
- Washable, rot proof and rust proof
- Antistatic, anti-UV and Corona treatments available
- 100% recyclable

EPP & EPS Foam

Automotive component parts and protective packaging

- Energy absorbent
- Lightweight (saving on fuel consumption)
- Customisable
- Complies with legislation for end of life vehicles
- 100% recyclable
