

**HÜNER KRİKO**  
ve YEDEK PARÇA SAN. TİC. LTD. ŞTİ.

Hüner Kriko was established in 1975 by Hüseyin KARABACAK, with an aim of serving the automotive industry and continues its operations in three different plants. Each of these plants are dedicated on different fields. First one is stamping plant (12.040 m<sup>2</sup> closed area) which also serves as headquarter, the second one is tube forming plant (13.600 m<sup>2</sup> closed area) and the third one is aluminium extrusion plant (15.000 m<sup>2</sup>). Our main products are stamped sheet metal body/frame parts, air charge tubes, turbo charge tubes, heating/cooling tubes, aluminium extruded profiles and aluminium injection casting parts. We have also TS 16949 and ISO 14001 quality certificates.

### Our Vision

Continuous development in the automotive industry and consistent quality.

### Our Mission
