

Matrices *Alcántara*

June 2019
Valencia (Spain)

OUR HISTORY:

- Matrices Alcántara SL was founded in 1986 in Valencia (Spain) by Mr. José Alcántara Martí. Current CEO of our company.
- It is an important and known company in Valencia to produce tools and metal parts stamping.
- It is a mature company with 40 years in the automotive market and others like electronics, computer, etc.
- Its beginnings were focused on tools. Soon after Matrices Alcántara began the stamping area. It has two main areas: stamping and tool.
- Currently, Matrices Alcántara makes Design Dies, Manufacturing, Stamping, Pressing, Cutting of metal parts and Machining.

OUR MISION, VISION AND VALUES:

CUSTOMER

What can we give to our customers...

- **Global Projects:** From the design of the tooling till serial production of metal parts.
- **Continuous Improvement:** The design of the tooling's allows us to offer our customers the right advice from the start of projects, cooperating together to reduce project costs.
- **Manufacture of tools:** Matrices Alcántara has its own building workshop dies and tools with modern machinery and team of designers, mold makers and fitters with long experience in the sector.
- **VA / VE ideas on our tools:** Matrices Alcántara workers have clear objectives to improve processes, manufacturing and tooling design achieving significant cost reductions at each stage.
- **Long and Short stamping productions:** Concern for continuous improvement in the exchange of dies (SMED) allows us to offer our customers competitive prices not only in big productions, also in small series.

CONTINUOUS IMPROVEMENT:

- In Matrices Alcántara we are implementing different projects about Lean manufacturing to become more competitive:
 - 5S's Project.
 - SMED
 - VSM
 - Automaintenance.
 - Daily Kaizen.
